Sharp Railrand to Connect Wath the Southern Utah and the Castle Valley at Price.

Without discrediting the future possibilities of the precious meets in that each day that the fundations of Utah is a becoming more evident each day that the fundation of the other who have claimed in the state. Close observers have attached more importance to coal most properties among Eastern Innucial interests than most Western people realize. But we are just entering upon the possibilities of the coal industry in Utah. The Knights have acquired some good coal properties needently taking up coal lands, as a result of their close proximity to a market make st possible for coal roads to be built. Of the coal lands here equired by the United States Smelting company. Some other big mine and smelter people have been quietly taking up coal lands, as a result of their location tear a railroad where either a fair haulage rate is assured or their close proximity to a market make st possible for coal roads to be built. Of the coal lands here equired by the United States Smelting company the Wall Street Journal has the following to say:

"Directors of United States Smelting company the Wall Street Journal has the following to say:

"Directors of United States Smelting company has a company to coal index speak with great optimism of the outlook for caraings in this directory within a reasonable length of the following to say:

"Directors of United States Smelting company show have either a fair haulage rate is assured to say the United States Smelting company the Wall Street Journal has the following to say:

"Directors of United States Smelting company to coal index speak with great optimism of the outlook for caraings in this directory within a reasonable length of the fair of the coal industry in the coal properties recently taking when have either the coal industry in the coal properties recently taking up coal lands here the coal properties recently taking up coal lands

ting who have within the last few weeks examined the company's coal lands speak with great optimism of the outlook for earnings in this direction within a reasonable length of time. It will at the outside be but two years from date before the tutal company, the coal unbaldiary holding title to these twelve thousand acres of coal lands, finished the construction of the eighty-mile road to connect with Union Pacific and give it an additional outlet for its coal. Soven surveying parties are now in the field and a few weeks will see this portion of the work finished. The general location of the line is definitely established and rights of way are secured.

that he should be enthusiastic in his praise of the remedy, and especially is this the case of a severe attack when life is threatened. Try it when in need of such a remedy, it mover falls. Sold by all dealers.

the equivalent of a million tons yearly,
"When United States Smelting went into the coal business has spring it financed the purchase of these coal properties through sale of \$10,000,000 6 per cent noies. This calls for an annual interest charge of nine hundred thousand dollars. This is considerably more than the coal properties are today carning not. It is probably more than they will sain until the new railroad line is fluished and in operation, but it is perhaps conservative to estimate that United States Smelling is today meeting less than 5 per cent of this minerest charge out of its own oarnings. This percentage will steadily decline as the coal output is increased up to and beyond a million tons."

WILL INVESTIGATE CAUSE OF DEATH AMONG DUCKS

WASHINGTON, Aug. 24.—At the quest of the American Game Pro-ctive and Propagation resociation as a government expert be cent to all Lake City, where thousands of fill ducks have been found dead marshes in that section, the destrucent of agriculture has sent Dr. 8. Buckley to make the pro-Buckley to make an investiga-into the cause of the death of

y years ago in the neighbor-of Sult Lake City the marshes iterally covered with dead and ducks. Sportames spent much dying ducks. Sportamen spent much time and money trying to discover the cames, but without avail. Resports reaching Washington state a similar epidemic is beginning. In order to learn, if possible, what kind of discuss the ducks are dying of, Dr. Buckley, who is an expert on birds and fow! life, was sent and is new on his way. Immediately upon his arrival he will diagnose the came of death of the ducks and hopes to be able to hit upon some remember.

BLAMED A GOOD WORKER.

BLAMED A GOOD WORKER.

Buy I H C Wagons for True Econom

You cannot farm without a wagen any more than you can keep house without a stove. You use your wagen every day and work it harder than anything else on the

farm.

Buy a wagon that lasts longer than the average. It is an easy thing to do, even though all wagons which are painted alike may lost alike. The difference in wagons is underneath the paint. It is the material and workmasship entering into the construction of I HC

New Bettendorf

which make them the best wagon investment. We tell you how our wagons are built, and we want every purchaser to convince himself before buying, that when I H C wagons are advertised as having oak hubs, hickory asles, and long leaf yellow pine box bottoms, these are the materials actually used.

When an I H C wagon reaches a farmer's barn, that farmer has one of the best wearing, easiest running farm wagons that skilled laber can make or that money can buy. There is no need to speculate in buying a wagon. I H C wagons are made for nation-wide uses, with special features adapted to local conditions. Weber wagons have wood gears. New Bettendorf and Steel King have steel gears. The I H C wagon dealer in your town sells the wagon best suited to your neighborhood. Ask him for I H C wagon literature, or write cenational Harvester Company of American.
